

APPENDIX "F"

8/14/02 D. Cyril Wright 542 Fourth Ave, Pittsburgh PA

Contusion (8 factors) is very likely

I leave the report open

Heart occlusion may have had some role

- can't rule it out

neck could have been a contributing factor

Cannot rule out punch or punches as
the source of the deep muscular trauma

Arm over eye/mouth cannot be ruled out as a factor

do not have substantiated, significant injury
